Educational Field Trip

BANNERGHATA NATIONAL PARK

“Today's students are visual learners, and a field trip lets them touch, feel and listen to what they are learning about, which helps them build on classroom instruction, gain a better understanding of topics, build cultural understanding and tolerance, and expose them to world outside their own.”

The Field trip was organised for all the students from Nursery to Grade 6 on two different days. Nursery and UKG kids went on 16th December, 22 and LKG with Grade 1-6 went on 19th December, 22. The kids had an amazing time at ‘The Bannerghatta National Park’ where they visited the ‘Zoo’ and ‘The Butterfly Park’ and explored a different world.

The Ghost of the Haunted Mansion

One stormy night, in a village named OFFLY HILLS, a lonely boatman came across this village and stopped for the night. He tied his boat to a tree which stood at the river bank. After doing so, the boatman looked for a place to go and sleep. Soon he located something that looked like an old mansion.

When he stopped at this mansion, a passerby warned the boatman, "No one has lived in this mansion for decades. Anybody who went in to investigate the mansion, never returned alive. We all believe there is a ghost inside the mansion". By now the boatman was as curious as a cat and didn't realize the risk of putting himself in danger. He decided to stay and investigate. When he entered the mansion, the door slammed at his back. Strange noises came from all directions. He got terrified and began to shiver and panic. He immediately turned on the torchlight. He could see a huge horde of bats approaching him. He ducked and dodged the horde but still continued to explore. The strange noises, creaking and howling continued. The boatman was very tired by now yet he continued until he saw broken window panes and rusty, bloody hinges. The broken windows were letting the cold breeze in.

The strange noises approached him, when he turned back he was petrified to see a ghostly evil wizard standing right in front of him! The ghost cast a spell on the boatman to sleep forever. Eversince the boatman was never to be seen ever again.

DON'T BE MENTALLY OFF WHEN YOU ARE PHYSICALLY OFF FROM WORK!!

The holiday season is here and this is the time we all were waiting for with great anticipation and enthusiasm. It's a time to relax, rewind and rejuvenate. What's more, this is the time to catch up and make great memories.

Below are a few tips on how to spend quality time with children during holidays.

- Have at least two meals together wherein you can share your thoughts and feelings.
- Play together, as sports create opportunities to have fun and also to keep our bodies healthy.
- How about a barbecue party? Wherein family members and extended family can come together and share the responsibility to prepare a wide spread of sumptuous cuisine. This activity helps in building a strong family bond.
- After dinner walks, help children to observe the things around them and bring up difficult topics for discussion.
- You can go to a local animal shelter or nursing home to spend time. This will help our children to learn to value and show gratitude for the entitlements they receive.

Spending time with your family is not a chore but a privilege. And this is the time to make fond memories. When we spend more time together we build strong bonds and this will reflect during tough times.
